AMENDMENT

Sir:

This is responsive to the Office Action dated June 18, 2002, in connection with the above-referenced patent application. Applicants have amended the claims 1, 19, 29, 30 and added claims 33-38 as follows.

IN THE CLAIMS:

1. (Four Times Amended) In a bridge server, a method comprising:
- receiving by said bridge server from a client system a request for content targeting a network server, and
- determining by said bridge server, based on said received request, additional content
